

# CHAMPION A CHILD

## QUEENSLAND LEARNING AND DEVELOPMENT CLINIC.

### The Champion A Child Scheme

The Queensland Learning and Development Clinic is offering organisations the opportunity to Champion A Child. Championing a child gives your organisation the chance to positively impact your local community in a long-lasting way that will affect not only the individual child but generations to come.

By sponsoring a child's therapeutic intervention you will give that child a chance to thrive.

GET INVOLVED TODAY!

**You can help build a Stronger,  
Healthier, Happier and More  
Productive Community!**

### WHO ARE WE?

QLDC is a wrap-around, one-stop shop service for children, families and schools in the community. We offer a holistic and wide-range of services including Psychological Services, Occupational Therapy, Speech Therapy, Paediatrics and expert Literacy intervention. We are a dedicated multi-disciplinary team focused on supporting the community through an integrated approach.

## HOW CAN YOU HELP?

### The Challenges and Solutions

Children in our community rely on adults in order to access services. However, sometimes children lack the necessary access to advocacy, financial support and pathways to help. Some services such as on-going child psychotherapy have either zero or limited eligibility to medicare rebates or government funding. Research shows that if issues such as childhood trauma are left unaddressed they become trans-generational and affect whole communities.

At QLDC we are passionate about providing children with an integrated wrap- around service based on best- practice and long- term individual and community benefits.

By joining with us to champion a child your organisation will enable a child to access the services they really need, including mental health, in order to provide long- term life changes.

**“Instead of dismissing kids or classifying them as trouble, demonic, helpless or a waste of time let’s scoop them up and embrace them.” – Kids Company UK.**
