

'SHOEBOX LIVING': CHILDREN OF OUR COMMUNITY

Logan children showcase their art-work
at the Logan Arts Festival.

'Shoobox Art' formed the heart of a series of workshops led by Kids Company in the UK. The results were breathtaking. Famous artists such as Grayson Perry and Damien Hurst were inspired to re-create shoebox images of their past in order to honor the childhood of these young people by returning to their own.

Children in Logan will be asked to create a scene in a shoebox that represents a room from their home. Our artistic creations will be displayed at the Logan Arts Festival alongside children's descriptions of their experience of living in their community.

'Shoobox living' supports the Champion a Child scheme developed by Cared4 at the Queensland Learning and Development Clinic.
